## TOKAN CONSTRUCTION AND DESIGN

**T**okan Construction and Design is a boutique luxury interior design-build firm owned by Heather Ferreras-Tokan. The cornerstone of her approach to design is creating harmony between simple aesthetics and efficiency. This is the easiest thing to remember but one of the hardest things to attain. But it is aiming high that drives all that Ferreras-Tokan does.

### **What is your design style?**

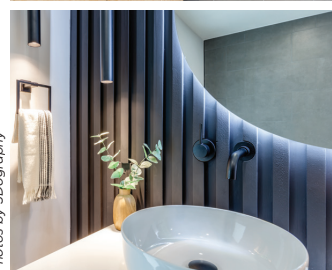

I am a modernist with a minimalistic design approach. Clean lines, monochromatic palettes and simplicity allows our eyes to devote more attention on what we want them to see. I even take a minimalistic approach with my wardrobe. Typically, I wear neutral-colored clothing because I want people to interact with my personality rather than focus on the colorful blouse I am wearing.

### **What is the one piece of advice you give to all your clients?**

It is essential to trust the process. .

### **How do you approach making interiors both functional and beautiful?**

During the consultation, I learn how my clients use the space in their home. Understanding my clients' lifestyle allows me to plan and design with purpose.
